BUT WAIT, THERE’S MORE…

Item of the month: Graffiti known as the "Savoyard knight"

Engraved on the wall of the Count of Savoy’s sitting room, this sketch of a knight imitates the equestrian seal of Count Amadeus V. You’ll learn about how the graffiti artist made changes to the original design. The "Collections" section is exhibited in collaboration with the Cantonal Museum of Archaeology and History in Lausanne, which hosts several collections linked to Chillon and its history.
